The following are the main menus and sub menus in the Classic module.

## Classic

### **Patient Details**

- **New Patient**
  - Enter preliminary patient information whenever patient consults you for the first time
- **Select Patient**
  - Select a previously registered patient
  - See previously recorded rubrics
  - See previous repertorisation tables or graphs
  - Repertorise patient symptoms for current date
  - Modify patient particulars
- **Select Physician**
  - Select a physician when there are multiple physicians working on same program
  - Access list of patients of the selected physician
- **Speed Case**
  - Record rubrics without bothering to record the patient particulars
  - Time saving option to make quick prescriptions
- **Save Speed Case**
  - Save rubrics and repertory charts of speed case and save it as a 'New Patient'
- **Previous Patients**
  - Select or revert back to any previously accessed patient in any one particular session.
- **Print**
  - Take print-outs of most of the features available in 'Classic 8'.
- **Exit**
  - Exit the 'Classic 8' application.

- **Rubric Selection**
- **Repertory and Chapter Selection**
  - **Select any Repertory(ies) and any of its chapter(s) to search and record rubrics**
  - **Open any single chapter, multiple chapters of a single repertory or multiple chapters of multiple repertories to record rubrics for one single case**
- **Repertory Screen**
  - **Rubrics arranged in an simple comprehensible format which is easy to navigate**
  - **Quick search within the repertory to reach to the desired rubric**
- **Repertory Search within a Chapter**
  - **Jump to a rubric using the level search**
  - **Search for a specific word or a rubric using internal search especially when you are not sure where the word is within the repertory**
- **Hidden Utilities**
  - **Right click on a rubric for 'Symptom options' like cross-references, themes etc. to arrive at the right rubric**
  - **Right click on a remedy for 'Remedy options' for keynotes, drug properties etc.**
- **Materia Medica confirmation**
  - **Confirm a 'repertory rubric' and its 'remedy (ies)' from the 'materia medica' source books.**
  - **To confirm the authenticity of symptom and to understand the context of the symptom as given in the materia Medicae.**
- **Combine Symptom**
  - **Combine two or more symptoms into one symptom to record and/or save it in your own customized 'combine symptom repertory'**
- **Record Rubrics**
  - **Record rubrics for repertorisation**
  - **View and edit recorded symptoms through 'Symptom List'**
  - **View the Repertorisation table**

- **Quick Repertorisation**

- This feature is essentially a time-saving repertorisation module where the user can do a quick recording of symptoms, view simultaneous repertorisation table, apply various repertorisation strategies from this one screen itself.

- **Key features:**

- Instant Symptom Recording from any of the installed repertories without having to actually open any repertories or chapters
- Restrict symptom recording to a specific repertory or any of its specific chapter
- Option to View / Replace / Record Alternate rubrics for the main recorded rubric
- Simultaneously view the Repertorisation table
- Apply Symptom options like 'Cross-references', 'Themes', etc. to arrive a right rubric
- Apply Repertorisation strategies to filter down remedies
- View Remedy options like 'materia medica' , 'keynotes', etc. for the selected remedy

- **Repertorisation**

- **Repertorisation screen**

- View Recorded Rubrics and the remedies of the repertorisation table
- Intelligent repertorisation system which can not only find the right remedy but also unknown or less unknown remedies that can be missed in a superficial case analysis
- Magnify the repertorisation table to cover the full screen

- **Repertorisation strategies**

- Incorporates a number of Repertorisation strategies arranged as user friendly buttons
- Common strategies like 'Drug filter', 'Weightage method' etc. used in our day to day practice are available
- Classical strategies devised and used by original Masters of Homoeopathy like 'Kentian' 'Boenninghausen' and 'Boger' analysis are exclusively available with Homopath

- **Advanced strategies like 'Mineral / Animal / Plant' filters, 'Drug mark set to one', etc. are especially designed to add new dimensions and angles to case totality**
- **Hidden Utilities**
- **Various 'Symptom' as well as 'Remedy' options available at a right click on recorded symptom.**
- **Print Repertorisation Table**
- **Select various presentations, combinations, options etc. and take a print-out of symptoms and remedies in a tabular format.**
- **Repertorisation Graphs**
- **View Repertorisation in form of graphs**
- **Previously recorded symptoms**
- **Keeps track of all symptoms recorded during previous visits**
- **View all repertorisation table associated with them**
- **Search**
- **Repertory Search**
- **Search for any specific word or combination of words in all or any of the installed repertories.**
- **Automatic inclusion of singular / plural and American / British alternatives of the query word which makes your search most appropriate & complete.**
- **Use Advanced Search Options to improve your search query.**
- **Record Rubrics without opening the repertories and their corresponding chapters**
- **Save results as your own 'User' repertory.**
- **Extend your search to other modules of the software like 'Materia Medica' or 'Tresorie'**
- **Intelligent Word Search**
- **View thousands of rubrics and Reach a right rubric from various ready-made options provided on this screen:**
  - **Themes**
  - **Cross – references**
  - **Synonyms**
  - **Similar Words**
- **Record Rubrics without opening the repertories and their corresponding chapters**

- **Simplified meanings of complex words provided through 'Word Meanings'**
- **Confirm the authenticity of a repertory rubric from materia medica source books using 'MM search' feature.**
  
- **Quick Search**
  - **Quick view and search of rubrics / sub-rubrics / sub-sub rubrics etc. of any repertory and any chapter**
  - **Single screen allows you to select a repertory and any of its chapter to view all the rubrics.**
  - **Simple identification of rubrics having sub-rubrics (marked with a '+' sign)**
  - **View All Sub-rubrics of a main rubric at one glance**
  - **Speedy recording of rubric (s)**
  - **View remedies of selected rubric and apply remedy option like 'keynotes', drug properties to it.**
  - **View Repertorisation table / Symptom list**
  - **Open Selected Symptom in the repertory when required**
  - **Useful for those who are familiar with the repertory format.**
  
- **Extract**
  - **Extract Convert Rep to MM**
    - **Create Complete Materia Medica from Repertories**
    - **Compare Remedies**
    - **Differentiate Remedies**
    - **Form PQRS symptoms of a Remedy**
    - **Know about lesser unknown and rare remedies**
    - **Save results in 'Favorites' folder**
    - **Access other options like 'Keynotes', 'Mat med', 'Drug Relation', 'Drug Properties' from this feature.**
  
  - **Extract Group Symptoms**
    - **Create Group symptoms of , kingdom and their sub-groups**
    - **Create Group symptoms of sub-groups like 'Acids', 'Natrum', 'Magnesiums', 'Solanaceae family', 'Roots', 'Snakes kingdom', 'Nosodes', 'Sycotic Remedies', and many more such permutations and combinations as required by you.**
    - **Save these group results in 'Favorites' folder**
    - **Access other options like 'Keynotes', 'Mat med' 'Drug Relation', 'Drug Properties' from this feature.**

- **Create Customized Repertories**
- **Create User Repertory**
  - **This repertory can be created by storing any number of 'Search Results' from any number of repertories**
  - **Provides a faster and easier access to all the symptoms commonly observed by the user in his practice.**
- **Create Materia Medica Repertory**
  - **Pick up any reference from the 'Search Materia Medica', and then save the 'Search Results' in the form of a repertory known as 'Matmed Repertory'.**
  - **Use this feature to create repertory of symptoms which are not well defined in the original repertories**
- **Create Combined Symptom Repertory**
  - **Combine two or more symptoms into one symptom from any repertories**
  - **Rubrics having similar expressions can be combined and saved, thus eliminating chances of missing out any remedy for these symptoms.**
- **My Repertories**
  - **Access all the Customized repertories using this feature**
  - **Record rubrics for repertorisation from the self- created repertorisation**
  - **Use symptom and remedy options like any other repertory.**
- **Materia Medica**
  - **Open Materia Medica**
  - **Read remedies from any of the Materia Medicae installed in the program.**
  - **Select any Materia book and then read any of its remedy**
  - **Select any Remedy and then read it from all the books it is available from**
  - **Choose the author of your choice to read his authored materia medicae**
  - **Read Keynotes / Drug Relationships / Drug Properties of the selected drug.**
  - **Compare Specific sections of remedies in an eye pleasing format**

- **Add remedies significant to you in your 'Favorites' folder.**
  
- **Search Materia Medica**
- **Search for any specific word or combination of words in all or any of the installed Materia Medicae**
- **Automatic inclusion of Singular / Plural and American / British alternatives of the query word which makes your search most appropriate & complete.**
- **Use Advanced Search Options to improve your search query.**
- **Access the entire text and remedy from search results, simply by double click on any reference.**
- **Save results as your own 'Materia Medica' repertory.**
  
- **Favorite Materia Medica**
- **Includes all books and its remedies which you have previously added as your favorites.**
- **Fast and easy access of remedies significant to you.**
  
  
- **Edit**
- **The Edit menu includes**
- **Copy**
- **Find**
- **Next**
- **Save as Repertory**
- **Fonts**
  
- **View**
- **View menu includes**
- **Full Screen**
- **Graphs**
- **Magnify**
- **Options**
  
- **Options**
- **This feature provides different 'options' viz.**
- **Select Default Chapters**
- **Modify Symptom Type**
- **Matmed Options**
- **Add Search Words**

- **Utilities**
- **Remedy List**
  - List all the remedies included in the program
  - Use filters for group wise selection of remedies.
  - Obtain information of any remedy using various options like 'Keynotes', 'Drug Properties', 'Drug relation' etc. for the selected remedy.
- **Remedy Editor**
  - View basic properties of the drug right from its basic nature, to its predominant qualities like stage, miasm, sex, thermal modality etc.
  - Alter these preset properties as per your liking
- **Similimum**
  - Guide line to remedy potency and repetition based on guidelines laid down on classical homoeopathic principles
- **Pack n Go**
  - Pack a case and use it for presentations or lectures anywhere in the world without having to install the actual program
  - Include essential elements of the case and other basic functionalities of the program to make your presentation complete.
  - Cases are packed in such small sizes that they can be carried even on a floppy.
- **Feed back**
  - Send us your feedback / suggestions / queries in a ready made feed back form.
- **Homopath Family**
  - This menu provides the user an easy access to other modules of the program like 'Archives', 'HomUtil' 'Tresorie', 'Links Tresorie', 'Case Analysis' etc.
- **Window**
  - This option displays when 'screens are open' or activated.
  - The menu contains options like 'Cascade', 'Tile' and 'Arrange Icons'.

The following are the main menus and sub menus in the PMS module.

PMS

## **Patient Management System**

The '**Patient Management System**' or PMS, as you may call it, is a modern day application that allows an easy way to store and update all the information about the Patient. It includes Patient Registration, Electronic Medical Record and many more features.

### **Features**

To give a glimpse of what this unique software can do for you, here is an exhaustive listing of all its features:

#### **Physician Information**

- Password protected storage and retrieval of physician's information to provide security for individual physician's data.
- Personal Information
- Set / Modify Password
- Resume Details
- General Report Information (allows personalized reports)
- Backup / Restore Location

#### **Patient Information**

- PMS allows efficient storage and retrieval of patient's information.
- Personal Information
- Patient's Voice Recordings, Video Clips and Scanned Pictures
- Case Record
- Full Case Record (lists all 'Case Record' information on a single page)
- Diagnosis
- Follow-up

## **Patient 'Do's and Don't' Instructions**

- **Select from 200 pre-compiled clinical conditions that you can print and handout to the patient.**
- **Saves times by avoiding repeated instructions to the patient.**

## **Reports**

### **Ready made and customized reports on**

- **General Report Information (allows personalized reports)**
- **Prescription**
- **Billing & Receipt**
- **Fitness Certificate**
- **Sickness Certificate**
- **Abroad Certificate**
- **Report to Physician**
- **Reference to Physician**

## **Printing**

- **Physician Details**
- **Physician Resume**
- **Patient Details**
- **List of Patients**
- **Patient More Information**
- **Full Case Record**
- **Diagnosis**
- **First Prescription & Follow-up**
- **Diagnosis History**
- **Follow List**
- **Patient Instructions**

## **Backup**

- **All Patients**
- **Current Patient**
- **Selected Patients**
- **Physician Data**

## **Restore**

- **All Patients**
- **Current Patient**
- **Selected Patients**
- **Physician Data**
- **From Version 7.0**
- **Restore Classic Data**

### **Auto Backup**

- **Unique feature, called Auto Backup, takes a backup of all your data periodically, at the start of the PMS application. The period between Auto Backup's is 24 hours.**

### **Hompath Family**

- **This provides an easy access to the other modules like 'Classic', 'Case Analysis', 'HomUtils' etc.**

**Archives**

### **ARCHIVES**

**Hompath Classic incorporates a power-packed Reference Database called Hompath Archives**

**'Archives' incorporates more than 300\* relevant reference books, especially selected keeping the needs of classic practitioners and the students in mind.**

**All these books can be searched at an amazing speed using a very simple process and the results can be viewed & even printed.**

**Any given key word can be searched for and the information extracted in no time.**

**Archives can be read too, by opening specific books. You could also use the database of installed books to make your notes for your classes, lectures, presentations or projects.**

**Hompath Archives provides information and search facilities in:**

**Materia Medica  
Organon & Philosophy  
Therapeutics  
Pharmacy  
Regional Therapeutics  
Clinical  
Remedy Picture**

Homutil

## **HOMUTIL**

**Hompath Classic 8.0 offers numerous practical and clinical application hints in the form of 'Homutil'.**

**This feature has been specially designed keeping the needs of the students/practitioners in mind thereby saving a lot of time spent in referring various references and books.**

**The data has been compiled exclusively, by experienced teachers, using a large and varied reference base.**

**Mother tinctures:** Provides internal and external tinctures useful for various clinical conditions

**Prophylaxis:** Provides you remedies useful in the area of preventive medicine

**Therapeutics:** Comes in handy for quick comparison & indications of frequently used remedies.

**Word Meanings:** Makes understanding complex words easy.

**Cross References:** Provides guide map for selection of rubrics that are otherwise difficult to imagine.

**Viva Questions:** Provides practice set of questions & answers enabling the student to prepare for their **Vivas**.

**Question Bank:** Provides question set on subjects included in the curriculum.

**Group Symptoms:** Gives you generic information of various group remedies.

Tresorie

## **TRESORIE**

**A virtual treasure chest of knowledge, Tresorie incorporates a fabulous compilation of over 5000 articles based on practical, clinical and homoeopathic experience of many generations of expert homoeopathic practitioners.**

**These articles have been published in various medical journals all over the world from the early 1900s to the present day.**

**Tresorie incorporates articles from the following journals:**

### **Journal name**

### **File Name**

- |  |                     |
|--|---------------------|
| <b>1. Homoeopathic Recorder</b>  | <b>Recorder</b>     |
| <b>2. Homoeopathic World</b>   | <b>World</b>        |
| <b>3. Homoeopathic Herald</b>  | <b>Herald</b>       |
| <b>4. Heal Thyself</b>   | <b>Heal Thyself</b> |
| <b>5. The Journal of the American<br/>Institute of Homoeopathy</b>                     | <b>American</b>     |
| <b>6. Homoeopathy</b>  | <b>Homoeopathy</b>  |
| <b>7. National Journal Of Homoeopathy</b>  | <b>NJH</b>          |
| <b>8. Transactions Of World Congress Of<br/>Homoeopathic Physicians &amp; Surgeons</b> | <b>Congress</b>     |

Links Tresorie

### Links Tresorie

**Links Tresorie** incorporates a fabulous compilation of over **800** articles based on practical, clinical and Homoeopathic experiences of expert homoeopathic practitioner from all over the world.

'**Links Tresorie**' incorporates articles that have been published in '**Links Homoeopathic Journal**' right from the year **1987-2000**.

Hompath Assist

### HOMPATH ASSIST

**HOMPATH CLASSIC 8.0** offers the physician to maintain a personalized journal in the form of **HOMPATH ASSIST**.

**Hompath Assist** includes three sub-modules

#### **Organizer**

- You can maintain a record of important visit dates, patient appointments, other appointment schedules and events
- Keeps a track and reminder settings for all important events.

#### **Bills `n` more**

- Maintain Patient bills and certificates.
- All income and expenses can be maintained through this module. Customized report and print-outs for the bills, incomes and expenses recorded.

#### **Address book**

- Maintain all your business and personal contacts through the '**Address Book**'.

## Case Analysis

### Case Analysis

**'Case Analysis'** module helps you to analyze all the details of your cases including your successes and failures in practice.

The **'Case Analysis'** is provided as a separate module to avoid conflicts with the main application. This option has been designed as a personal research tool that you can use not only for presentations and lectures but also for documenting and analyzing your cases for enhancing your practice.

Case analysis is directly connected to the **'Follow up'** and **'Diagnosis'** from where it can pick up data on the basis of the query defined by you.

One can navigate to other options though the navigation bar provided at left side of the screen.

The navigation bar includes following options:

- **Select Physician**
- **Analysis**
- **Basic Info**
- **First Prescription**
- **Follow-up**
- **Case Record**
- **Repertorization**
- **Statistics**
- **Graph**

## Materia Medica Live

### MM Live

**It is the first Homoeopathic Multimedia CD where 22 remedies come alive.**

**It is a work of science with a touch of art, remedies explained in a live and beautiful manner.**

**Click on any of the remedy to experience the beautiful animated description of that Remedy which creates a permanent impact on your hear and mind.**

## Materia Medica Elite

### MM Elite

**A fabulous compilation of 31 homoeopathic remedies with complete details of each remedy**

**Select any remedy from the 'Select Remedy' column and click on 'Drug Properties' to view full name, basic properties, kingdom, class type, etc of that remedy.**

**Gives you the 'Detailed & Exhaustive Remedy Picture' of the selected remedy in an eye pleasing html format**

**Every remedy is explained under different sub-headings like Introduction, Common name, Source, Thermal, Ailments from, Modalities, Guiding indications, Compare and Contrast, Remedy relations etc.**
